## BUCKSKIN AND LEATHER

**LEATHER SPECIALS:** For bundle specials on Deer and Elk  
**Refer to front section of catalog.**

**BRAINTAN:** Deer, Elk, and Moose  
Refer to each species in front section of catalog.

## BUCKSKIN:

We basically have three weights of leather:  
Garment, Heavy or Moccasin, and Extra Heavy.  
In the leather business, these are measured in ounces (one ounce is approx. 1/64 of an inch). Deer "garment weight" is 2 to 2 1/2 oz. Elk "garment weight" is 3 oz. Elk "heavy weight" is 5-7 oz. Elk, Moose & Bison "extra heavy weight" is 8-10 oz. Another way to view this is 100 sq ft of "garment weight deer" weighs approx. 12 lbs. 100 sq ft of "garment weight elk" weighs approx. 18 lbs. 100 sq ft of "heavy weight elk" weighs approx. 28 lbs. 100 sq ft of "extra heavy weight elk" weighs approx. 34 lbs.

## BUCKSKIN LEATHER:

Buckskin Grades:  
(Hole criteria is the same for A, BB+, and #1 Suede).  
We are just grading the "Grain side."

**AA** Nearly perfect and perfect skins May have a small hole or two.  
**A** Very good skins with the vast majority of area very usable. Most all will have a hole or scar. Good clean grain side.  
**BB+** Same as A grade, except scars or blemishes enough not to be able to call A.  
**BB** Basically BB+ grade, except has a couple or few extra holes to deal with in garment use.
